Liberal Arts College – an education for life!

'Concordia college still the only one of its kind in Canada, 15 years on'

Selected excerpts from a story by John Kalbfleisch, The Montreal Gazette, Sunday, September 5, 1993

"... Concordia University's Liberal Arts College [LAC] has been ticking along quite successfully for 15 years. And this summer, as in past years, there has been no shortage of students lining up, hoping to be among the select 40 admitted..."

"The LAC program aims to give students an unparalleled overview of the Western intellectual tradition. Although there are important excursions into such areas as music and the visual arts, it remains fundamentally a great-books program..."

"At LAC's heart is an unusual system of seminars in which two professors, not one, lead the discussion of a given week's assignment for a class of up to 20 students."

"In addition to the unusual seminar format, the interdisciplinary nature of LAC courses sets them apart from normal undergraduate offerings."

"[The College] remains unique in this country..."

"The intense learning experience is fostered by LAC's own building, a modest Victorian row house on Mackay St."

"An annual tour to New York... exposes students to the cultural riches of that city, and more elaborate trips have been organized in the past to destinations such as Vienna, Athens, Turkey and Israel."
